Building Your Life as a Chapter Member

Southwest District Area Workshop Season 2022

Erika L. Pope

Tau Beta Sigma | 2021-2023 National President

- Pronouns: She/Her/Hers
- TBΣ Life Member #2610, Theta Theta Chapter Henderson State Univ. (Go Reddies!)
- KKΨ Life Member #4703 (Thank you Danny George!)
- Currently live in Memphis, TN...
- ...But the **Spicy SWD** is home!

A great read that inspired this presentation!

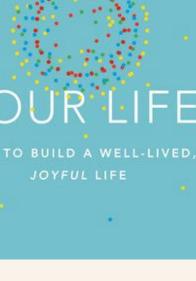

BILL BURNETT & DAVE EVANS

NEW YOR TIMES BEST SELLE

YOUR LIFE

DESIGNING

HOW TO BUILD A WELL-LIVED,

Whoa!

The ideas we will share today are only the beginning...putting them into action will be up to each of you. Don't be afraid to reach out to me afterwards, I'm a great sounding board!

erikapope@tbsigma.org

This is an Interactive Presentation!

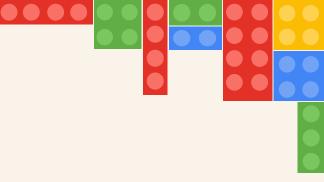

Access the Jamboard link in the chat!

The Main Concepts

Places to get started!

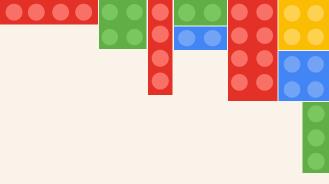

1) The Blueprint

You can't build things, until you have the initial plans: "Knowing Your Whys"

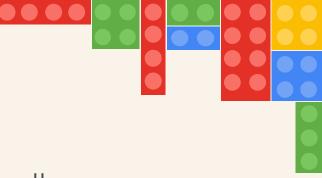

- Why did I join?
- What do I hope to get out of being a member of these organizations?

2) The Foundation

A building needs something solid to stand on: What are our Fraternity and Sorority "whys?"

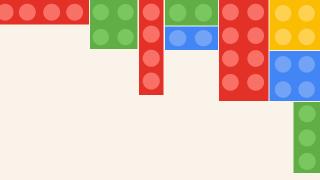

- Why do we exist?
- Specifically why does your band program have an Active Chapter(s)?

3) The Framework

The foundation is laid, so now comes the walls, right? But wait...you need something that will hold the walls up...

- Attending District Events
- Attending National Events
- Plugging into TBS & KKPsi Communication Platforms.
- Leadership and professional development workshops!

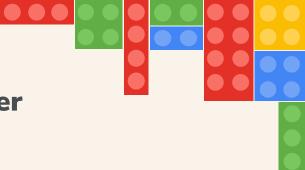

4) Building the Build Team

Identifying the main stakeholders and collaborators needed to complete the job...

- Director of Bands
- Chapter Sponsor
- District Counselors/ Governors
- District Leadership
- National Council
- Big Brother/Sister

"Design is a collaborative process, and many of the best ideas are going to come from other people."

> —Bill Burnett & Dave Evans, Designing Your Life: How to Build a Well-Lived, Joyful Life

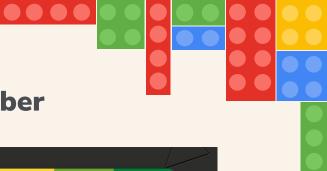

5a) The Renovation Phase: Chapter Member

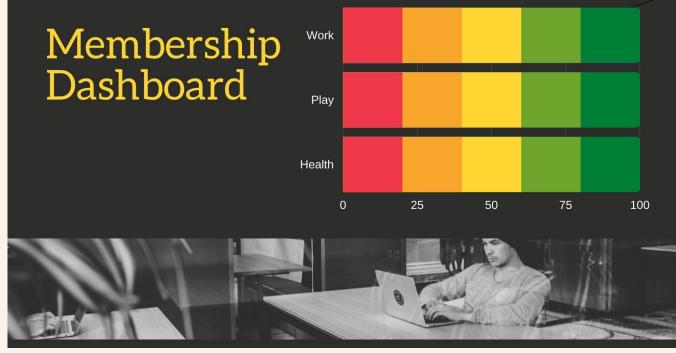

The longer a building stands, the more wear and tear it will accumulate. Full on repairs or modifications?

For the Individual:

- Responsibilities (More or Less)
- Relationships
- Desires
- Drive/Passion

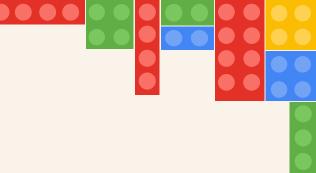

4a) The Renovation Phase: Chapter Member

"Awareness and curiosity are the design mind-sets you need to begin building your way forward."

> —Bill Burnett & Dave Evans, Designing Your Life: How to Build a Well-Lived, Joyful Life

5b) The Renovation Phase: The Chapter

The longer a building stands, the more wear and tear it will accumulate. Full on repairs or modifications?

For the Chapter as a whole:

- Band/Chapter size
- Personnel Changes
- Chapter dynamics
- Band needs
- National Constitutional Changes
- A global health crisis

POSSIBLE CHAPTER RENOVATIONS

BROTHERHOOD/SISTERHOOD

Are we all work and no play? How's our joint relationship?

SERVICE PROJECTS

Are we serving to our fullest potential?

CHAPTER CONSTITUTION

How often is it reviewed? Does it appropriately govern per current practice?

CHAPTER IMAGE

Does our look, look good to others...do we look good to ourselves?

BUILDING PROJECT LIST

LONG-TERM

SHORT-TERM

THANKS!
